

## **Meeting Agenda**

Date: 150429

Facilitator: Carl "Linsen" Albertsson

Participants: Carl Albertsson, Isaac Gonzalez, Filip Larsson and Filip Slottnér Seholm

### **1. Objectives. Resolve any issues preventing the team to continue**

We have a plan of what we need to do so at the moment there is nothing that prevents the team to continue.

### **2. Reports from previous meeting**

The group have worked together on fixing the projects structure and design. We now know how we are going to organize our files in our packages. We have decided to go with packaging by feature.

Filip Larsson - Started working on search.

Carl Albertsson - Has started to read on how the android Login activity works and the logic. Also made two sketches of preliminary gui.

Filip Slottnér Seholm - started to refactor code and making a better mvc structure in handler package.

Isaac Gonzalez - Remade Profile and Advertisement, created interfaces for them and created service classes for them. Service classes deals with all communication between [Profile and Advertisement] and Parse.

### **3. Discussion items**

What we should do next.

Fix analysis model with deleting Advertiser class. Need to add attributes to the classes in analysis model.

### **4. Outcomes and assignments**

This sunday the group will have a workshop and finish the MVC-structure and package structure.

Filip Slottnér Seholm - Structure Handler package

Carl Albertsson - Get the Login up and running and get GitInspector working.

Isaac Gonzalez - Finish Advertisement and AdvertisementService. Structure packages.

Filip Larsson - Continue on Search function

### **5. Wrap up**

Everyone has something to work on. If they are done there is more assignments in the todo list.

Next meeting Sunday May 3rd.
