

Meeting Agenda

Date: 150506

Facilitator: Carl "Linsen" Albertsson

Participants: Carl Albertsson, Isaac Gonzalez and Filip Slottnér Seholm

1. Objectives. Resolve any issues preventing the team to continue

Get test plugin up and running

2. Reports from previous meeting

Filip Larsson - Started working on search.

Carl Albertsson - Created loginView class and implemented logic that works with our mvc pattern. Also got gitinspector running.

Filip Slottnér Seholm - started to refactor code and making a better mvc structure in handler package.

Isaac Gonzalez - Worked on service-classes. Made interfaces for them and made AdvertisementService. Made some small changes here and there.

3. Discussion items

how to fix the view-controller relationship in android.

Fix analysis model with deleting Advertiser class. Need to add attributes to the classes in analysis model.

4. Outcomes and assignments

Everyone should write tests for their model classes

Filip Slottnér Seholm - Structure Handler package

Carl Albertsson - Get the Login up and running.

Isaac Gonzalez - Plug-in JUnit and start testing.

Filip Larsson - Continue on Search function

5. Wrap up

Everyone has something to work on. If they are done there is more assignments in the todo list.

Next meeting Thursday May 7th.
