1. Objectives. Resolve any issues preventing the team to continue
create a TODO list!

2. Reports from previous meeting
A first running version is created and working well.
Filip Larsson - Fixed defaults.
Carl Albertsson - Created a simple GUI.
Filip Slottner Seholm - Made pins show on map load from
Isaac Gonzalez - Revised Profile and Advertisement classes and made them subclasses of ParseUser, which I today learned was the wrong way to go.

3. Discussion items
Make a to do list with everything we want to do with our program so that everybody always has something to work on and make a priority list which is done during this meeting.
Fix analysis model with deleting Advertiser class. Need to add attributes to the classes in analysis model.

4. Outcomes and assignments
Filip Slottner Seholm - Refactor the Location class and MapActivity into AdList model.
Carl Albertsson - Start on the GUI and if time allows, log in logic.
Isaac Gonzalez - Refactor Profile Advertisement and make Service-classes for them.
Filip Larsson - Start on Search function
Working together and finish the modification RAD.

5. Wrap up
Everyone has something to work on. If they are done there is more assignments in the todo list.

Next meeting Monday april 27th.
